

ABI KLEIN

Full Stack Web Developer

I believe in the power of positive thinking. This enables me to understand the world around me and grow with it. My selfless, self-motivated nature keeps me relentlessly committed to mastering skills one resourceful step at a time and to creating incredible things.

PROJECTS

WorkIt

Build a secure web application with full CRUD functionality that uses a PostgreSQL database to store application data. The Angular.js front end consumes a Rails API, and user authentication is implemented via hashed passwords and JSON web tokens.

Rcp

Built a secure, password-protected Ruby on Rails application with full CRUD functionality using a PostgreSQL database. The app utilizes an ORM to create a database table structure and to interact with recipe data stored in a relational database. User authentication is implemented via password-hashing and JSON web tokens.

Endeavor

Built a full-stack MEAN application in a team project environment. The app implements CRUD functionality by consuming a third-party API and a RESTful Node.js API. The APIs are consumed via AJAX, and the front-end is built with Angular.js. MongoDB stores application data.

Cheerups

Built a full-stack, password-protected MVC social media platform using Node.js and Express.js. The app employs two models with full CRUD functionality; data is stored on a MongoDB database and deployed on Heroku.

BlackJack

Built a publicly accessible, interactive BlackJack application using an object-oriented programming approach. The app is built using HTML, CSS, JavaScript, and jQuery.

WEB DEVELOPMENT EXPERIENCE

GENERAL ASSEMBLY | Web Development Immersive Remote Student | Oct. 2016 - Feb. 2017

In this intensive, fully immersive program, I am continuously sharpening my web development skills. I live and breathe code, all day, every day, for 80-90 hours per week. I can navigate, debug, and create thoughtful front-end code using HTML5, CSS3, Javascript, jQuery, and Angular.js. I am also proficient in back-end development using Ruby on Rails, Node.js, Express.js, CRUD functionality with RESTful routing, MongoDB, and Mongoose.

HUMAN RESOURCES & PROJECT MANAGEMENT EXPERIENCE

KPMG | Partner Services Coordinator (Temporary) | Feb. 2016 - Oct. 2016

REGENERON PHARMACEUTICALS | Talent Acquisition Coordinator (Temporary) | Oct. 2015 - Feb. 2016

DELOITTE | Campus Recruiter (promoted from Campus Recruiting Coordinator) | Mar. 2012 - May 2013

INKTEL CONTACT CENTER SOLUTIONS | Talent Acquisition Associate | Jan. 2011 - Mar. 2012

TEACHING EXPERIENCE

MASA ISRAEL TEACHING FELLOWS | Elementary School Teaching Fellow | Aug. 2014 - Jun. 2015

SKILLS

Vanilla JavaScript
jQuery
HTML
CSS
CSS Frameworks (Bootstrap, Skeleton)
Node.js
Express.js
Angular.js
MongoDB
Mongoose
Ruby
Ruby on Rails
SQL
PostgreSQL
NoSQL databases
Third-Party APIs
Git/GitHub

EDUCATION

Columbia University | New York, NY
2010
BA, French & Francophone Studies

University of Miami | Coral Gables, FL
2014
Post-Baccalaureate Pre-Medical
Certificate
